Investment returns and principal value will fluctuate, so investors' shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data cited.\*\*
- \*\*Vanguard ETF Shares are not redeemable with the issuing Fund other than in very large aggregations worth millions of dollars. Instead, investors must buy and sell Vanguard ETF Shares in the secondary market and hold those shares in a brokerage account. Performance data for periods of less than one year does not reflect the deduction of purchase and redemption fees. Maintenance, low balance, and service fees may be assessed by some funds. None of these fees are reflected in the performance figures. If these fees were included, the performance would be lower. All other performance data are adjusted for purchase and redemption fees, where applicable.
